**Notes:**
- (C2) We bought our Sebastopol home in 2013. The property came with the structure in discussion and was used as a workshop by the previous owner. I am the founder and CEO of small tech company and in 2014 I converted the existing structure to my office space; I am the only tenant. I am installing a 12.5kW solar array on the roof and adding 6 Tesla Powerwalls BBU system.
