Homeless System of Care Redesign

Kelli Kuykendall, Housing and Community Services
Margaret Van Vliet, Community Development Commission
Patrick Wigmore, HomeBase
IDEAL STRUCTURE

Written assignment of responsibility from Primary Decision-Making Group

Data integration
Pipeline production
Funding coordination
Coordinated Entry
Performance

LEAD AGENCY
- Makes vision a reality
- Small groups of knowledgable experts
- Flesh out policy decisions
- Conduct required administrative tasks

TASK GROUPS

Santa Rosa & Petaluma
Sonoma County CDC
Providers
Recommendations

1. Implement a collective-impact decision-making group for Sonoma County that owns the issue of homelessness in the community

   • Establish an ad-hoc task group to develop and evaluate various models for an effective collective-impact decision-making group to become the Board of the Continuum of Care.
   • Develop a transition plan for the various responsibilities held by existing decision-making groups.
   • Create and approve a guiding principles document that outlines high-level aspects for the systems including: standard performance outcomes, required best practices, and funding alignment.
   • Establish key task groups necessary for this group to operate effectively.
Recommendations

2. Brand Sonoma County’s System-Wide Approach to Ending Homelessness
3. Creation of Key Standing Task Groups
4. Alignment of Lead Agency Staff
5. Approval of a Housing First Model by Primary Decision-Making Group
6. Housing First Fidelity Self-Assessment
