Re: Safety Net Contract Expenditures

On April 2, 2019, the Board approved principles to inform department regarding the contract of safety net services programs. The departments of Health Services, Human Services, Probation, and the Community Development Commission developed these principles to meet the following goals:

- Ensure that policy priorities are addressed in a coordinated and strategic manner.
- Ensure that resources and services are distributed equitably and fairly across regions,
- Promote a fair open, and competitive process for vendor selection,
- Reduce confusion among vendors as to how to obtain funding from the County.

During the meeting, the Board directed staff to return with an update to the attachment that accompanied the Summary Report detailing the list of Safety Net Vendors that have received funding in FY 2017-18. The Board requested information for FY 2018-19 and that the geographic location of the services provided be identified.

Staff have prepared the attached spreadsheet to include data for FY 2018-19. However, the data to identify the geographic location served by each vendor is not consistently tracked and a mechanism for tracking this data needs to be scoped. Staff will return with an update.
