PUBLIC COMMENT:

Public Comment may be made via email or during the live zoom meeting. To submit an emailed public comment to the Board email Madison.Murray@sonoma-county.org. Please provide your name, the agenda number(s) on which you wish to speak, and your comment. These comments will be emailed to all Board members. Public comment during the meeting can be made live by joining the Zoom meeting using the above provided information. Available time for comments is determined by the Board Chair based on agenda scheduling demands and total number of speakers.
1. Welcome and Introductions (0:03-0:07)
   - Ben Leroi, Continuum of Care (CoC) Board chair, called the meeting to order at 1:00 pm. Ben Leroi went over the agenda, clarified Zoom rules around public comment and Brown Act guidelines.
   - Roll Call was taken:
     - Present: Tom Schwedhelm, City of Santa Rosa; Supervisor Chris Coursey; Jennielynn Holmes, Catholic Charities of the Diocese of Santa Rosa; Jules Pelican, proxy for Jules Pelican, Committee on the Shelterless; Ben Leroi, Santa Rosa Community Health; Margaret Sluyk, Reach For Home; Alena Wall, Kaiser Permanente; Cheyenne McConnell, Youth Community Member; Don Schwartz, City of Rohnert Park; Lisa Fatu, Social Advocates for Youth; Bill Carter, Sonoma County Health Services; Ludmilla Bade, Lived Experience Representative; Stephen Sotomayor, City of Healdsburg Services;
     - Absent: Paula Glodowski-Valla, proxy for Angela Struckmann, Sonoma County Human Services; Kevin McDonnell, City of Petaluma

2. Agenda and Minutes Approval (0:08-0:12)
   - ESG-CV recommendation will be moved to December meeting.
   - Don Schwartz provided a correction to the October 27, 2021 minutes.

   Paula Glodowski-Valla arrived at this time.

   Public Comment:
   None at this time.

   Bill Carter motioned to approve the agenda; approve minutes from 10/27/21 with Don Schwartz’s edits; Jules Pelican seconds.

   Ayes: Ben Leroi, Jennielynn Holmes, Jules Pelican, Ludmilla Bade, Don Schwartz, Chris Coursey, Paula Glodowski-Valla, Alena Wall, Margaret Sluyk, Bill Carter, Lisa Fatu, Cheyenne McConnell, Stephen Sotomayor
   Noes: None
   Abstain: Tom Schwedhelm, not present for 10/27/21 meeting.
   Absent: Kevin McDonnell
3. Charter and Policy Committee Update (00:13-1:09)
Don Schwartz presented on behalf of the Charter and Policy Committee for the upcoming Board composition and elections.

Kevin McDonnell arrived at this time.

Public Comment:
Gregory Fearon

Kevin McDonnell motioned to approve recommended charter changes and membership application, with the caveat that DEI language in the Vision section will be readdressed and finalized by the Strategic Planning Committee, and change the word goal to vision within the charter; Tom Schwedhelm seconds.

Ayes: Ben Leroi, Jennielynn Holmes, Tom Schwedhelm, Jules Pelican, Don Schwartz, Chris Coursey, Paula Glodowski-Valla, Alena Wall, Margaret Sluyk, Bill Carter, Lisa Fatu, Cheyenne McConnell, Kevin McDonnell, Stephen Sotomayor
Noes: Ludmilla Bade
Abstain: None
Absent: None

4. Standing Committee Updates (1:10-1:57)

a. HMIS Data Committee: Asya Sorokurs presented on behalf of the committee. The Quarterly Compliance Checklist approval will be delayed for further review.

b. Lived Experience Advisory Body: Andrew Akufo presented on the LEAP application and planning application. Looking for more people to be involved.

c. Coordinated Entry Advisory (CEA) Committee: Jennielynn Holmes provided an update, still waiting on responses from the RFP. Emergency Housing Vouchers are still rolling out and the Implementation Work Group has met to roll out the emergency shelter standards.

d. Strategic Plan Committee: Stephen Sotomayor presented on three work groups: Coordinated System of Care, Housing Work Group, and the Increasing Income Work Group. A subgroup met to determine the potential contractors to assist in the Development of a Countywide Strategic Plan.

Don Schwartz requested that the Marin Housing Authority discussion be sent out to the board.

Public Comment:
Gail Simmons

5. 5 Minute Break (1:58-2:03)

6. Staff Report (2:04-2:22)
Michael Gause, Ending Homelessness Program Manager, provided a report on Winter Shelter, county funding for Indoor/Outdoor Shelters. Congregate Shelters are open through March and hotels are still open and available. The Point in Time Count is scheduled for last Friday in January. Dave Kiff, Interim Executive Director provided some information on safe parking county funding.
**7. Word From the Street (2:23-2:38)**

Ludmilla Bade presented on some of the drug use trends in the Sonoma County unhoused population.

Public Comment:

Gail Simmons

Public Comment:

Gerry La Londe Berg

**9. Board Member Questions and Comments (2:50-2:59)**

Board members discussed emergency shelter bed availability reports and what this might look like. It was noted this would be appropriate to bring to the HMIS Data Committee to come up with a report that is useful to the CoC Board.

**10. Public Comment on Non-Agendized Items (2:59)**

None at this time.

*Meeting Adjourned at 4:01 PM*
Sonoma County Continuum of Care Board
Executive Summary

Item: Staff Report Sonoma County Continuum of Care Board Elections 2022 Timeline

Date: December 15, 2021

Staff Contact: Karissa White, Continuum of Care Coordinator, Karissa.White@sonoma-county.org

Proposed Elections Timeline

- CoC Membership Applications Disseminated November 29, 2021
- Continuum of Care Open Board Nominations January 3, 2022 through February 23, 2022
- All CoC Voting Membership Applications due to vote in the 2022 election February 17, 2022
- Special CoC Membership Meeting for Board Elections with four vacant seats March 2, 2022
- New CoC Board meeting Doodle poll for 2022 schedule will be sent on March 3, 2022
- Chair & Vice-Chair elections will take place during the first CoC Board meeting with new members

Vacant Seats for the 2022 Election

- **1 Second Provider:** One representative of a homeless services provider different than the one with an appointed seat, as elected by CoC voting members
- **1 Licensed Health Care Organization:** One representative from a licensed health care organization, as elected by CoC voting members
- **2 At Large:** at large seats as selected by voting CoC members; the candidates need not be CoC members themselves

Staff Recommendation

- Membership Application Review Process – Staff to review applications, send to Chair and Vice-Chair for approval. If there is an issue with an application, it goes to full board for consideration.
- Per the Charter, ballots will be collected by Board members holding appointed seats, and tallied by them. Staff recommend Vice Chair be the designee to review SurveyMonkey and to be the designee copied on emails in the event of a tie.
Overview of Changes to the Charter

A full review of the revised Sonoma County CoC’s Governance Charter was completed by HUD Technical Assistance provider Thuan Huynh with Abt Associates on December 9, 2021. The TA provider confirmed the Charter passed on all of the requirements but one:

“Specifies the CoC(s) responsible for entering into the HMIS Lead agreement with the HMIS Lead.”

While this information is detailed on page 12 of the Charter, it was confirmed it should be listed under the CoC Board Roles and Responsibilities section 2.1, page six of the Charter.

Previous language:

“Designating the HMIS Lead to manage the HMIS system in Sonoma County.”

Revised language based on HUD TA Review:

“Designating the HMIS Lead to manage the HMIS system in Sonoma County and entering into the HMIS Lead agreement with the HMIS Lead.”

Staff has changed all references to the CoC’s “goals” to “vision” as approved by the CoC Board on November 17, 2021.

One change remains to finalize the revised Sonoma County Continuum of Care Governance Charter. The Strategic Planning Committee is working on the final language to include in the diversity, equity, and inclusion statement in the Vision section of the Charter. The Committee should have the final language to incorporate after their next scheduled meeting on December 17, 2021.

Once this final change is incorporated, staff will send a final version of the Charter to the full CoC Board, post it on the CoC’s website and send communications out through the CoC Listserv.
Item: Coordinated Entry Advisory Committee (CEA)

Date: December 15, 2021

Staff Contact: Thai Hilton, Coordinated Entry Coordinator, thai.hilton@sonoma-county.org

Request for Proposals RFP: The CEA committee received two responses to the RFP. One was from the Sonoma County IMDT team, and the other was from HomeFirst, an agency from Santa Clara County. The CEA Committee reviewed these proposals at their December 15th meeting. There was no time to forward a recommendation to this board. The CEA Committee will forward its recommendation to this board as soon as possible.

Emergency Shelter Standards: The emergency shelter implementation group met twice to define egregious and dangerous behavior for the “readmission” policy. Their recommendation is below. Additionally, the group received information about the referral process for the 25% set aside beds. Staff developed a flier which will be distributed to emergency service providers and outreach teams once finalized.

**Definition of Egregious and Dangerous behavior:** It is recognized that each shelter is different. Each situation, the environment it occurs in and antecedent conditions can have an impact on the perceived severity of an action. Shelters are to consider the following definitions when considering granting re-admission to a person that has previously been suspended from services. Egregious behavior is defined as abuse, abandonment, neglect, or any other conduct that is deplorable, flagrant, or outrageous by a normal standard of conduct. Dangerous behavior is defined as the creation of an imminent and unreasonable risk of injury or harm to either persons or property of another or the actor.

Rapid Rehousing (RRH) Standards: The CEA Committee received draft standards for RRH programs. A working group of RRH providers developed these standards. Once approved by the CEA Committee, they will be forwarded to this board for approval.

Emergency Housing Vouchers: Referral groups continue to make progress and hope to have sent all referrals to the Housing Authorities by the end of December. A centralized housing location group is being formed to provide housing location for the EHV program. Currently, staff is gathering interest from local providers and will begin these meetings soon. Most recent EHV numbers are below:

- **SCHA:** 119 referrals/port ins received, 7 leased, 4 pending inspection, 56 vouchers issued and searching, 52 applications in progress
- **SRHA:** 99 referrals/port ins received, 33 vouchers issued and searching, 7 leased

Last updated 12/7/2021
Rationale:

The CoC Program Interim Rule requires CoCs to establish and follow written standards for providing CoC assistance in consultation with recipients of the Emergency Solutions Grants (ESG) program (24 CFR 578.7(9)). The ESG Program Interim Rule requires the ESG recipient to establish and consistently follow written standards for providing assistance with ESG funds (24 CFR 576.400 (e)). At a minimum, these written standards must include:

- Policies and procedures for evaluating individuals' and families’ eligibility for assistance in the CoC and ESG Program;
- Policies and procedures for determining and prioritizing which eligible individuals and families will receive assistance for Street Outreach, Emergency Shelter, Homelessness Prevention (HP), Permanent Supportive Housing (PSH), Transitional Housing (TH), and Rapid Re-Housing (RRH);
- Standards for determining what percentage of rent a program participant must contribute while enrolled in a RRH or HP project.

The County of Sonoma Continuum of Care has adopted the following Standards of Care for Emergency Shelters. Emergency shelters are safety net facilities for people experiencing housing crisis. They provide an entry point into stabilization services leading as quickly as possible to permanent housing. Because participants are in crisis, entry requirements and documentation are minimal and regardless of ability to pay. Programs involve congregate living; therefore, basic community rules ensure a safe and healthy environment in which participants can progress in resolving their housing crisis.

Program Standards serve as a common policy framework and the minimum standards for Sonoma County's Emergency Shelters. All projects funded under the CoC program, Emergency Solutions Grant (ESG) Program, shall apply the following standards consistently for the benefit of all program participants. The CoC strongly encourages projects that do not receive the above-mentioned funds to accept and utilize these standards. These policies have been developed through a working consensus process. While the Emergency Shelter Program standards are not policies and procedures, they may be used as an outline for local agency policies, procedures, and adopted policies should be incorporated into local manuals.
GUIDING PRINCIPLES/PROGRAM ELEMENTS

HOUSING FIRST

On September 29, 2016, Governor Jerry Brown signed Senate Bill 1380, making California a Housing First state. This requirement applies to any program providing housing or housing-based services to people experiencing homelessness or at risk of experiencing homelessness, whether the program was designed to address homeless or not.

The Housing First model is an approach to serving people experiencing homelessness that recognizes a homeless person must first be able to access a decent, safe place to live, that does not limit length of stay (permanent housing), before stabilizing, improving health, reducing harmful behaviors, or increasing income.

Under the Housing First approach, anyone experiencing homelessness should be connected to a permanent home as quickly as possible, and programs should remove barriers to accessing the housing, like requirements for sobriety or absence of criminal history. It is based on the “hierarchy of need:” people must access basic necessities—like a safe place to live and food to eat—before being able to achieve quality of life or pursue personal goals.

PROGRAM ELEMENTS

STABILIZATION AND BASIC ORIENTATION TO PROGRAM:

Shelters should ensure personal contact is made to acclimate new participants to the facility and help them establish a sense of safety. A one-to-one meeting should take place within the first week to build rapport and offer support in resolving housing crises.

HOUSING FOCUSED:

Emergency shelter programs should direct their services to resolving the individual’s housing crisis. Participants should be referred to Coordinated Entry within 5 days of entering a shelter program. When able, shelter providers will enroll client into Coordinated Entry. Shelters will offer non-mandatory case management services to clients. Case management is always voluntary and not a requirement of the shelter. A Housing First model case management should create a dialog focused on addressing barriers to housing. Individual activities should be compiled in an Individual Action Plan or equivalent, with review with the case manager. Seasonal shelters generally do not provide case management services due
to their operating hours. If able, seasonal shelters will refer clients to CES or other community services.

SERVICES:

With the understanding that each participant’s needs are individual, as a system of care the CoC seeks to make the following services available to all shelter participants. These services may be provided by the shelter or the shelter may refer clients to these services if/when they are available. These services are not mandated parts of the shelter program and the acceptance of these services or referrals is up to the client.

i. Health Assessment, establishment of primary care home and health coverage, and access to behavioral health treatment as needed.

ii. Financial education, Money Management & Savings Programs, including tenancy education and credit clean-up.

iii. SSI/SSDI Outreach, Access, and Recovery (SOAR) benefits assistance; a program designed to increase access to Social Security Administration (SSA) disability benefits for eligible individuals who are experiencing or at risk of homelessness and have a mental illness, medical impairment, and/or a co-occurring substance use disorder.

iv. Legal services: record expungement, addressing pending charges, and legal services for those fleeing domestic violence.

v. Other Mainstream resources: i.e. MediCal, Temporary Assistance for Needy Families, Cal Fresh, substance abuse services.

TRAUMA INFORMED CARE

Sonoma County shelters seek to provide a trauma-informed system of care. All shelters should work to bring Seeking Safety evidence-based practice into their programs. Trauma-informed services should include case management; onsite integrated health resources; ACEs-based programs; living skills programs focused on communication skills, grief/loss, and well-being.

Shelter operations:

Last updated 12/7/2021
ELIGIBILITY

TARGET GROUPS: This document establishes minimum standards for shelters serving single adults, families with children, Transitional Aged Youth, and other specialized populations. Individual shelters may establish standards for more specialized practice.

All shelters receiving ESG or CoC funds must serve only clients who meet federal definitions of homelessness (and in limited cases, those “at-risk” of homelessness). Homeless status is verified at intake for all incoming shelter residents.

a. Documentation: Please see the chart on page 16-17 for acceptable forms of documentation. Shelters should make every effort to meet federal standards of documentation. The preference is for 3rd party documentation. 2nd party documentation (observation by a homeless services provider) is acceptable if 3rd party documentation is not available. At a minimum, client self-certification will be accepted. Lack of 3rd party documentation must not prevent an individual or family from being immediately admitted to emergency shelter. Records contained in an HMIS or comparable database used by victim service or legal service providers are acceptable evidence of 3rd party documentation and intake worker observations.

b. Income Levels: There is no fee for using emergency shelter services. However, all shelter participants will be required to certify their income level.

ADMISSIONS

POLICIES AND PROCEDURES:

Shelters are required to create policies and procedures for accepting individuals into their shelter programs for those clients not covered in the Unified Shelter Intake Policy below.

SHELTER INTAKE

Shelters must provide access to all individuals who wish to access shelter and they must provide accommodations to those who may not otherwise be able to access shelter. See the Reasonable Accommodation policy. Providers must actively seek to engage and offer shelter services to those who normally are unable to access shelter services.

Shelter providers will conduct intakes for 75% of their beds on a first come-first served basis. If beds are not available, the shelter will develop a waitlist and contact the client when their name has been reached.

Last updated 12/7/2021
Shelter providers will maintain a minimum of 25% of their beds for vulnerable individuals who may be referred from outreach teams and emergency service providers including community mental health response teams. Additionally, individuals who are at the top of the by names list who are waiting on imminent placement into a permanent supportive housing project may be referred by CES to this 25% set aside. Shelters will keep a mixture of top and bottom beds available for this set aside. These beds are to be filled on a first come, first served basis.

When an individual expresses interest in shelter, outreach workers or other service providers, will determine which shelter best meets an individual’s needs based on the client’s needs and preferences. When a shelter option is determined, the shelter will be contacted to check the availability of their set aside beds by calling a designated phone number for the shelter. If a bed is available, the outreach worker will assist the individual in getting to the shelter. If no immediate shelter placements are available, the outreach worker will offer assistance connecting the client to the agency’s first come, first serve waitlist and provide the client with information on other options for emergency shelter/services referrals.

Individuals accepted into these set aside beds will be expected to arrive at the shelter during the agencies intake hours of operation as directed by the shelter. If an individual is unable to arrive during the agency’s hours of operation, the outreach/emergency services worker will make another inquiry the following day.

Shelter providers will develop affirmative marketing strategies for bringing individuals into the shelter who would not normally choose to be served in a shelter. Shelter providers must have policies and procedures in place to make accommodations to the shelter environment to allow those individuals to access the shelter’s services.

**REQUIRED INTAKE DOCUMENTS:**

The following documents may be required of individuals who are seeking access to emergency shelters however, documents should not constitute a barrier to accessing emergency shelter services. If the participant is unable to produce any of the following documents, the shelter may make a local decision about the necessity of pursuing them.

a. Personal identification: at least one photo ID is preferred, see attached list for options, page 17-18.

b. Documentation of Homelessness or At-Risk status per federal guidelines.

c. Income self-declaration

d. HMIS intake forms

Last updated 12/7/2021
c. Signed acknowledgment of receiving program rules or requirements.

d. Signed acknowledgement of receiving any other participant rights and responsibility

e. Signed acknowledgement of receiving an agency grievance procedure. All clients will be provided a copy of the procedure.

FAMILY SHELTERS

For purposes of admission into a shelter that serves households with children only a family is defined as:

- A head of household with minor child(ren); and
- Any household made up of two or more adults, regardless of sexual orientation, marital status, or gender identity, presenting with minor child(ren)

EXCLUSIONS:

HOUSEHOLDS WITH CHILDREN:

No one under the age of 18 should be allowed to reside in a single-adult shelter. If a household with minors presents for service at a single-adult shelter, shelter staff with refer the family to more appropriate services.

UNACCOMPANIED MINORS:

Unaccompanied minors may only be served with agreement of the legal guardian or appropriate authorities. Basic Center Programs (BCP) projects serving youth who run away from a foster care, child welfare must create a MOU between their programs and child welfare agencies that clarifies roles, responsibilities, and define the provision of services at the time youth enter the shelter. This MOU should also clarify what financial obligations are associated with the provision of services. This requirement is in accordance with ACT Information Memorandum ACYF-CB/FYSB-IM-14-1 issued on November 4, 2014 available at

https://www.rhyttac.net/index.php?option=com_content&view=article&id=160:foster-care-youth-in-rhy-programs---information-memorandum&catid=26:rhy-news&Itemid=211  BCPs should contact the parents, legal guardians, or other relatives of each youth as soon as feasible, but no later than 71 hours of the youth entering the program

Last updated 12/7/2021
MENTAL HEALTH CRISIS:

If the participant is unstable but not actively violent, they should be immediately referred to Crisis Stabilization Unit (707-576-8181) If safety of self or others is at stake (suicidal, imminent danger to oneself or others), an immediate call should be made to 911.

READMISSION:

People who have been suspended or otherwise exited for egregious behavior may require the approval of the program manager to be readmitted. Agencies will develop their own policies and procedures for determining readmission for individuals who were exited for egregious or dangerous behavior. These policies and procedures will provide individuals an opportunity to appeal these decisions.

It is recognized that each shelter is different. Each situation, the environment it occurs in and antecedent conditions can have an impact on the perceived severity of an action. Shelters are to consider the following definitions when considering granting re-admission to a person that has previously been suspended from services. Egregious behavior is defined as abuse, abandonment, neglect, or any other conduct that is deplorable, flagrant, or outrageous by a normal standard of conduct. Dangerous behavior is defined as the creation of an imminent and unreasonable risk of injury or harm to either persons or property of another or the actor.

SEX OFFENDERS:

Shelter providers will establish policies regarding the admission of sex offenders into their respective shelters considering all funding and local restrictions that may be in place.

MEDICALLY VULNERABLE CLIENTS:

Shelters always seek to screen participants into their shelter programs. Shelters will make every attempt to serve all who are seeking service however, when a participant’s level of care exceeds what can be offered by program staff, or a participant is not able to meet their activities of daily living (ADLs), the client may not be able to access shelter. Agencies will develop their own policies and procedures on how to accommodate medically vulnerable clients or otherwise refer to more appropriate services to help resolve their homelessness.

COORDINATION WITH OTHER PROVIDERS

COORDINATED ENTRY SYSTEM (CES)

Emergency Shelters are considered emergency services and as such must provide access to their shelters and Coordinated Entry without any barriers. This means that all permanent
shelters in Sonoma County must operate as Coordinated Entry access points or must provide access to the CES system. Access is defined as providing a pathway to the Coordinated Entry System through direct enrollment and placement or through referral to another CES access point. Individuals who access shelters, must be able to enroll eligible participants directly and into HMIS and the shelter project within 5 business days or make a referral to an access point within the same period of time. If an individual seeking shelter placement should be served by another shelter (e.g. if a youth is attempting to access a family shelter), the access point must immediately refer the individual to a more appropriate shelter. In addition, shelters which operate as CES access points, must also provide a safety assessment to clients who may be fleeing domestic violence, sexual assault, stalking etc. This assessment is not intended to be comprehensive rather to determine if the person is experiencing a domestic violence, stalking, human trafficking situation and to refer that individual, if applicable, to a provider or service that may better serve them. To the extent possible, a shelter representative should attempt to attend the monthly CES case conferences.

STREET OUTREACH

Outreach workers will refer unsheltered persons to into Coordinated Entry as quickly as possible, conducting the VI-SPDAT screening as possible and assisting them to access Coordinated Entry. If clients are interested in emergency shelter, outreach workers will refer clients to shelters and explain shelters’ intake process.

RAPID RE-HOUSING (RRH) PROVIDERS

Emergency Shelter providers will connect clients with CES so that they can access RRH programs.

PERMANENT SUPPORTIVE HOUSING PROVIDERS:

Shelter providers will work with Coordinated Entry and PSH providers to locate clients and to assist in documentation of chronic homelessness. Additionally, PSH providers will coordinate shelter placement if a person loses PSH assistance. However, prior to exiting a client from a PSH program, providers should coordinate with CES to see if they can facilitate a transfer to another PSH program that would better serve the client.

PARTICIPANT’S RIGHTS AND RESPONSIBILITIES

Shelter operators will develop their own participant rights and responsibilities and provide them to shelter participants upon entry. Additionally, these rights and responsibilities will be posted in common areas of the shelter. These rights will all contain the following:

- The right to be treated with dignity and respect
• The right to privacy within the constraints of a shelter environment.
• The right to reasonable accommodations
• The right to self-determination in participation in case management and services including the right to decline to participate in supportive services.
• The right to confidentiality and to be informed how that information will be used.
• The right to reside in a safe environment that is free from physical and emotional abuse.

The Client responsibilities will be developed by shelter operators but will contain the following:

• Participants are expected to maintain the confidentiality of other shelter participants.
• Participants are expected to follow the guidelines outlined by shelter operators.
• Participants are expected to respect others’ right to quiet enjoyment of the premises (to the extent that this is possible in a communal environment), safety, and to help maintain a clean and safe environment.
• Participants are expected to respect the property rights of others.

EXITS FROM SHELTER

TIME LIMITS:
Shelters provide a safe temporary housing for individuals experiencing homelessness for up to 180 days within 1 shelter stay. Shelter operators will track the number of days a participant has accessed the shelter to ensure participants are not exceeding 180 days in one stay. Extensions beyond 180 days are possible under limited circumstances. Shelters will develop their own policies and procedures for considering extensions.

EMERGENCY EXITS:

Peaceful enjoyment of the premises: Shelter environments are communal living environments that often strain the ability to maintain a peaceful or quiet environment. To the extent that is possible in a communal shelter, participants will respect others right to the peaceful enjoyment of the premises. Violations of quiet enjoyment of the premises include derogatory language, loud outbursts, use of personal electronic devises to a level that disturbs others and any other action that disrupts others’ quiet enjoyment of the premises. These may be treated with verbal or written warnings and support for behavioral change initially but can result in exit from the shelter.

Violations of safety: Shelter participants are expected to maintain a safe physical environment. This includes refraining from bringing dangerous objects/drugs into the
shelter environment as well as keeping and using personal belongings or shelter property in a safe manner. Shelter providers can develop policies and procedures for the safe storage of items that may be considered dangerous and are not otherwise permitted in a shelter environment. Violations of safety also includes a failure to maintain a safe environment through neglect of personal health and hygiene, proper use or storage of personal medications or hoarding of belongings to the point that it substantially impacts the safety of other participants and staff. If a participant is unable to maintain the safety of themselves or other, either through dangerous activities or though neglect, participants may be exited from the shelter and a suspension of further services may be imposed depending on the severity of the safety violation. Providers will work with the client to identify any safety related concerns and attempt to resolve the issue, when possible, prior to any decisions pertaining to exit of the participant.

**Violence:** Verbal and physical violence, including threats of violence, is considered to be an egregious violation of safety. If a participant is engaged in threats or acts of violence, they can be subject to exit and a further suspension of services may be imposed. However, shelter staff are expected to consider any antecedent conditions that may have caused the threats or acts of violence and keep these in mind when imposing a suspension of services.

If an exit is required to ensure safety, the client will be informed of the reason and duration of the exit. Additionally, every effort will be made to connect the participant with more appropriate resources, and to identify a way to ensure the participant's safe transport to alternate services (e.g., detox). Whenever possible, shelter staff will elevate the case to a higher level of care, including case conferences with the Coordinated Entry.

**INELIGIBLE CLIENTS:**

Clients must meet the eligibility requirements to receive assistance. Clients must meet categories 1,2,3 & 4 of HUD’s homeless definitions. Additionally, clients must be able to meet their own activities of daily living. Homeless definitions can be found here: https://files.hudexchange.info/resources/documents/HomelessDefinition_Recordkeeping_RequirementsandCriteria.pdf

**MEDICATION STORAGE**

Shelter providers will establish policies regarding the storage of participants’ medication. The policy will address the storage and refrigeration of medication. Shelters will provide locked storage of medications for clients. The shelter provider will not administer or dispense medication. Shelter participants are expected to manage their medications without any assistance from staff. If a participant abuses their medication to the point of endangering themselves or others, they may be exited from the shelter.
GRIEVANCE PROCEDURE

Shelter operators will develop their own policies and procedures for participant grievances. Grievances include: appeals of decisions that impact shelter participants (exits, extensions etc.) and grievances of shelter policies or perceived unfair/unequitable treatment by agency staff. Participants should inform clients about their grievance policy upon intake or orientation. Copies of the grievance policy should be posted in the shelter and staff will make grievance forms available to clients upon request. Clients should be informed of how their grievance will be handled and will be given a timeframe for completion of each step of the process.

REASONABLE ACCOMMODATIONS

The Sonoma County Continuum of Care is committed to providing equal opportunity and reasonable accommodations to participants with disabilities to allow them to better access shelter services. Shelter operators must develop their own reasonable accommodation policies and this policy will be clearly communicated to shelter participants upon entry.

A reasonable accommodation is a change, exception or adjustment to a program, service, building or dwelling unit that will allow a qualified person with a disability to

- Participate fully in a program;
- Take advantage of a service;
- Live in a dwelling

To show that a requested accommodation may be necessary, there must be an identifiable relationship, or nexus, between the requested accommodation and the individual's disability. When a client requires an accessible feature(s), policy modification, or other reasonable accommodation, the program must provide the requested accommodation unless doing so would result in a fundamental alteration in the nature of the program or an undue financial and administrative burden. A fundamental alteration is a modification that is so significant that it alters the essential nature of the program. In such a case, if possible, the program will offer an alternative solution that would not result in fundamental alteration of the program or a financial or administrative burden.

SERVICE ANIMALS

Shelter providers will develop policies and procedures regarding access for individuals with service animals. Shelter providers must admit participants and their service animals.
regardless of documentation. Shelter providers must not ask what disability necessitates the service animal.

CLIENT FEEDBACK

Shelter providers must develop policies for soliciting and receiving feedback from shelter participants. Feedback can be elicited through exit interviews, surveys, focus groups etc. Shelters will utilize this feedback to assess program performance and inform shelter policies.

LIMITS TO SERVICE (TIME LIMITS) AND EXTENSIONS

Emergency shelter stays are limited to 180 days in a one shelter stay unless an extension is granted by the shelter operator. Extensions are granted on a case by case basis. Shelter operators will develop their own policies and procedures for considering extensions.

There is no limit to the maximum number of times a person can access shelter services with the exception of those whose services have been suspended due to an egregious violation of the rules.

SEASONAL SHELTERS

Seasonal shelters are designed to address the public health risk of cold or wet winter weather to unsheltered people. Shelter operators will input client data into the Homeless Management Information System (HMIS), following all relevant data quality standards, and will refer all participants to appropriate City, County, State, and other local services if able. Seasonal shelters do not offer the same supportive services to individuals that may be found in other shelters. Additionally, seasonal shelters may or may not be able to offer other amenities such as storage and food service depending on their facility and funding.

EMERGENCY PREPAREDNESS/NATURAL DISASTERS

Shelter operators must develop policies and procedures for emergency situations with relation to staff and participant safety and security. These policies and procedures should include plans for the safe evacuation of a shelter participants and staff to alternative locations in the case of a natural disaster. Staff should be trained and well versed on these policies and procedures.

COMMUNICABLE DISEASES

Shelter providers will develop policies and procedures for providing services in an environment of communicable diseases, including policies and procedures for social distancing and screening. Policies will comply with any federal, state and local public health measures. These policies and procedures should be flexible and regularly updated to comply with changing conditions and public health orders.

FACILITY STANDARDS

ADMINISTRATION:

RECORD RETENTION AND STORAGE

It is the common practice of Sonoma County homeless service providers to retain paper records for 7 years. The Continuum of Care’s preference is that all data be entered into HMIS. HMIS meets all HIPAA, privacy and security requirements, more completely than most paper systems. Private user information can be drawn from the meta-data. Participating providers may scan documents and upload them to HMIS. Under HUD’s data standards, the HMIS vendor will be responsible for regular secure storage of data retained beyond the required periods. To the extent possible, providers will move toward such electronic records, with the understanding some agencies will be required to retain paper records for monitoring by their funders.

Files containing personal information shall be stored in locked and safe locations to maintain confidentiality. Shelter providers will maintain policies and procedures that detail their agency’s retention times and how release information requests are processed.

ELIGIBLE ACTIVITIES

24 CFR § 576.102 states: Subject to the expenditure limit in § 576.100(b), ESG funds may be used for costs of providing essential services to homeless families and individuals in emergency shelters, renovating buildings to be used as emergency shelter for homeless families and individuals, and operating emergency shelters.

For a complete list of eligible activities please see: 24 CFR § 576.102
https://www.law.cornell.edu/cfr/text/24/576.102

HMIS

Shelter Providers must actively document within the HMIS and do so within accordance with the HMIS Policies and Procedures. Programs are required to document enrollments and exits in HMIS within a 5-day period for the purpose of live bed management. More information about HMIS data standards can be found at.

As a requirement from HUD, some individuals may not wish to provide their personal identifiable information into the HMIS. An individual or family can refuse to participate in
HMIS, and the provider must still offer all the same services to that household. However, some information may be required by projects to determine eligibility for housing or services, or to assess needed services. Therefore, although program participants are not required to participate in HMIS, they will need to provide personal information in order to be determined eligible for particular resources.

Individuals who refuse to provide their information in the HMIS, will be given a unique code within the HMIS, and providers must explain that this may deem them ineligible for certain projects. For more information on how to enroll clients in the HMIS without identifiable information, please use the following link to access this information: https://sonomacounty.ca.gov/CDC/Homeless-Services/Sonoma-County-HMIS (HMIS Forms and Guidelines: How to Anonymously Enter a Client into HMIS)

REPORTING

Programs are required to be timely on any required reporting. If a program is not able to meet the deadline for a required report, the program administration will provide notice of an estimated time from for when reports can be received.

PROGRAM MONITORING

Shelter providers can expect the Sonoma County Community Development Commission to monitor their program annually to ensure adherence to these standards.

RESOURCES

Shelter providers are encouraged to use all of the resources that HUD makes available to providers to better understand program rules and regulations and to better implement programs. Below are resources that can assist providers.

- HUD Exchange: ESG requirements: https://www.hudexchange.info/programs/esg/esg-requirements/

EXHIBITS

HOMELESSNESS DEFINITIONS

Homelessness in Sonoma County is determined by HUD definition. Please click link for a chart:
