Protect their health for the years ahead

Preteen Vaccine Week
March 1 – 7, 2020

Immunizations recommended for 11 and 12 year olds include:

- ✓ Two doses of human papillomavirus (HPV) vaccine to protect boys and girls from HPV-related cancers and infections.
- ✓ Tdap vaccine to help prevent tetanus, diphtheria, and whooping cough. All incoming 7th graders need proof of a Tdap vaccine and two doses of chickenpox vaccine before starting school.
- ✓ Meningococcal vaccine (MenACWY) to protect against certain serious types of bacterial meningitis and other related infections.
- ✓ A seasonal flu vaccine to protect against serious illness caused by the flu.

Preteens may also need to catch up on other immunizations, including chickenpox (many don't have their 2nd dose), MMR (measles, mumps, rubella), and hepatitis B. Two shots of chickenpox vaccine are now required before 7th grade in California.

Proteja la salud de su preadolescente para los años venideros ~ La Semana de Vacunación de Preadolescentes 1 – 7 de marzo, 2020

Las vacunas recomendadas para los jóvenes de 11 y 12 años de edad incluyen:

- ✓ La serie de dos vacunas contra el virus del papiloma humano (VPH) para proteger a todos los preadolescentes contra infecciones y tipos de cáncer relacionados al VPH.
- ✓ La vacuna Tdap para prevenir el tétanos, la difteria y la tos ferina. Todos los estudiantes que ingresan al 7^o grado necesitan un comprobante de que recibieron la vacuna Tdap y dos dosis de la vacuna contra la varicela antes de comenzar la escuela.
- ✓ La vacuna contra la enfermedad meningocócica (MenACWY) para proteger contra ciertos tipos de meningitis bacterianas y otras infecciones relacionadas.
- ✓ Una vacuna anual contra la influenza (también conocida la gripe) para proteger contra enfermedades graves que causa la influenza.

Es posible que los preadolescentes también necesiten ponerse al día con otras vacunas, incluyendo la vacuna contra la varicela (muchos no tienen la 2^a dosis), MMR (vacuna contra el sarampión, las paperas y la rubéola) y hepatitis B. Ahora se requieren dos dosis de la vacuna contra la varicela para ingresar al 7^o grado en California.

Community Immunization Clinics and Clinical Services in Sonoma County

January, February, March
2020

Clínicas de Inmunización de la Comunidad y Servicios Clínicos en el Condado de Sonoma
