July 20, 2023

Mr. Erick Roeser
Auditor-Controller-Treasurer Tax Collector
585 Fiscal Drive, Suite 10
P.O. Box 3879
Santa Rosa, CA. 95402-3879

Dear Mr. Roeser:

As per your request, I have done a Portfolio Appraisal for the quarter ending June 30, 2023.

The pricing for the Sonoma County Portfolio is now done by SymPro System. This system uses U.S. Bank to price the portfolio. This pricing has been more accurate than the previous SunGard System and will match the internal valuations with the U.S. Bank statements

The portfolio is in compliance with the County Investment Policy as well as the State Government Code.

Included in this report are the following items for your review:

- * Summary Page (page2)
- * Credit Risk Analysis (pages3-13)
- * Maturity Distribution (Page14)
- * Interest Rate Comparison Graph (page15)

If you have any questions, please feel free to contact me. Thank you.

Sincerely,

Gerald P. Richardson

Gerald P. Richardson

Summary of Portfolio Appraisal
Quarterly report ending June 30, 2023

1. Market activity for the quarter.

The Federal Reserve Open Market Committee met On May 2-3, 2023, and raised the Fed Funds target range to 5% to 5 1/4%. The yield on the 2-year treasury was 3.97% on April 3, 2023, and was 4.87% on June 29, 2023. The range of the 2-year treasury for this period was a high of 4.87% to a low of 3.79%.

2. Credit Risk (Pages 3-13)

The portfolio has over 82% of its funds invested in AAA and AA rated securities by Standard and Poor's and Moody's. This includes U.S. Treasuries. The balance of the portfolio is invested in A rated securities or better by S&P, with the exception of the SCEIP bonds, which are unrated.

3. Interest Rate Risk

The FOMC met on May 2-3, 2023, and continued to raise rates; they voted to raise the target range for the federal funds rate to 5% to 5 1/4%. At their June 13-14, 2023, meeting they did not change the target rate, opting to pause and evaluate the effect of the rapid increase in rates over the past year or so. The Committee will take into account the cumulative tightening of monetary policy, the lags with which monetary policy affects economic activity and inflation. The labor market conditions, inflation pressure, and financial and international developments will determine the Committee's next move. Chair Powell stated that the committee is strongly committed to returning inflation to its 2% objective.

4. Maturity Distribution (Page 14)

49% of the portfolio matures in less than one year. I want to note that the portfolio has a weighted average maturity of 547 days; if you take out the SCEIP bonds the weighted average maturity falls to 539 days. The current WAM is within the band of 530days to 580days. This maturity band will allow the staff to better position the portfolio to take advantage of a more stable rate environment. The overall portfolio is priced at 96.62% and the investments provide sufficient liquidity for the cash flow needs of the pool participants.

5. Interest Rate Comparison (Page 15)

Sonoma County portfolio has equaled or outperformed its benchmarks for many of the past years. However, currently, and in the near future the portfolio will experience a performance lag due to the extraordinary rapid increase in rates, but that gap is closing.
