County Counsel's Impartial Analysis of Measure H

Measure H asks voters whether the County should impose a one-half of a cent per dollar (\$0.005) sales tax on the sale and use of tangible property within Sonoma County, including both incorporated and unincorporated areas, until ended by the voters, to supplement existing funding for wildfire prevention and preparedness, paramedic services, and emergency and disaster response, raising approximately \$60,000,000 annually. Measure H was placed on the ballot by citizen petition pursuant to Elections Code sections 9100 through 9126. On September 12, 2023, the Board of Supervisors determined that Measure H received the requisite number of signatures to qualify for the ballot pursuant to Elections Code section 9110, and on September 26, 2023, the Board directed that Measure H be placed on the ballot pursuant to their ministerial duties under Elections Code sections 9118(b) and 1405(a). California decisional law, including *Jobs and Housing Coalition v. City of Oakland*, dictates that if a majority of the qualified electors voting on Measure H vote for the sales tax it will be approved.

Proceeds from the tax would be received by the County of Sonoma Auditor-Controller-Treasurer-Tax Collector and would be placed in a special Fund, designated as the "Improved and Enhanced Local Fire Protection, Paramedic Services, and Disaster Response Transactions and Use Tax Account" ("Fund"). The Fund would be allocated to the 31 agencies specified in the Measure.

The proceeds of the Fund could only be used for the purposes set out in the measure, including, but not limited to wildfire prevention, preparedness, emergency response, and vegetation management; recruitment and retention of local firefighters; updates to essential equipment and facilities; transfer of funds among designated local agencies or entities; implementation costs; and countywide expenditures, as more fully described in the Expenditure Plan. Expenditures from the Fund may not be used to supplant any agency's historic funding for the same purposes.

The proposed measure includes fiscal accountability requirements, including (1) an Oversight Committee, (2) mandatory funding agreements between the County and the agencies receiving funds, (3) annual reports by the agencies describing the positions, equipment, and facilities funded, and the specific activities that support fire prevention, and demonstrating compliance with the requirements of the Initiative, and (4) mandatory annual audits detailing the amount of funds collected and expended, and the status of any project authorized to be funded by Measure H.

The new rate would go into effect on October 1, 2024, and remain in effect until ended by the voters. The proposed sales tax would be imposed and collected by merchants in the same manner as existing sales tax. The ordinance would increase the County's appropriations limit for the maximum four-year period permitted by law to allow for the use of all proceeds raised by the proposed tax.

A "yes" vote on Measure H is a vote to approve a one-half of a cent per dollar sales tax on the sale and use of tangible property within Sonoma County, including both incorporated and unincorporated areas, until ended by the voters, to supplement existing funding for wildfire prevention and preparedness, paramedic services, and emergency and disaster response, commencing October 1, 2024.

A "no" vote on Measure H will prohibit the County from imposing the proposed sales tax.

County Auditor's Fiscal Impact Statement — Measure H

This measure would increase the sales tax collected in Sonoma County by one-half of one cent per dollar (\$0.005) on all taxable sales occurring in Sonoma County.

Based on records from the California Department of Tax and Fee Administration for the period of July 2022 through June 2023, the additional sales tax of \$0.005 would yield approximately \$62.0 million each year to improve and enhance local fire protection, paramedic services and disaster response services in Sonoma County.

Under the Expenditure Plan for this measure, 99% of net proceeds would be allocated to fire and emergency service entities throughout the incorporated and unincorporated territory of Sonoma County, and 1% would be allocated to the County of Sonoma for implementation, oversight, and administration. The first proceeds from the measure would be received in December 2024, with the first full year of revenues impacting the budget for fiscal year 2024-2025. Proceeds would be distributed based on the allocation percentages specified in the Expenditure Plan. Annual estimated revenue increases would be as follows:

Independent Fire Districts	\$	27,993,000
City of Santa Rosa		8,928,000
Sonoma County Fire Chiefs Association		8,723,400
City of Petaluma		4,457,800
County Service Area 40		4,203,600
City of Rohnert Park		3,410,000
City of Healdsburg		1,556,200
City of Sebastopol		1,116,000
County of Sonoma		880,400
City of Sonoma		731,600
	\$	62,000,000

Revenue allocated to Independent Fire Districts includes a 5% allocation to Northern Sonoma County Fire Protection District for countywide vegetation management crews. If the entirety of funds cannot be distributed according to the schedule, remaining funds shall be distributed to the Redwood Dispatch Communications Authority (REDCOM).

The Expenditure Plan provides for investment into six program categories:

- (1) Wildfire Prevention, Preparedness, Response, and Vegetation Management
- (2) Recruitment and Retention of Local Firefighters
- (3) Update Essential Equipment and Facilities
- (4) Transfer of Funds Among Designated Local Agencies or Other Entities
- (5) Implementation Costs
- (6) Countywide Expenditures

The proceeds from the measure shall be used to supplement existing services and shall not be used to pay for existing operations.

The Board of Supervisors shall establish an Independent Oversight Committee to provide transparency and ensure fiscal accountability.

If the election is successful, the County will be reimbursed for the cost of the election from the proceeds of the tax.

In accordance with the Elections Code, the scope of this fiscal impact statement has been limited to the measure's effect on revenues and expenditures. It does not address larger countywide fiscal issues such as the measure's effect on the overall County economy.

Full Text of Measure H

The People of the County of Sonoma ordain as follows:

SECTION 1. Title.

This measure shall be known and may be cited as the "Improved and Enhanced Local Fire Protection, Paramedic Services and Disaster Response Initiative."

SECTION 2. Findings.

Like many counties in California, Sonoma County has faced major challenges in recent years when it comes to the critical funding needs facing fire services as we all prepare for future wildfire and winter storms impacts. The annual threat of both are now a reality that is not going away, and Sonoma County Fire Chiefs and Firefighters are concerned that the current County-wide fire service delivery structure, funding, and system structure is not enough.

While our county grows and public safety demands increase, the public we serve needs and expects prompt, efficient and effective emergency service everywhere at any time. Our specific concerns include that the system is not meeting National Fire Protection Agency standards in all parts of the county. Several service gaps exist, especially in the more rural areas where there are currently extended response times to critical medical emergencies and vehicle accident victims. There are also significant delays in getting an effective fire force on scene to keep small fires from becoming major incidents.

Following the failure of Measure G on the March 2020 ballot, the Sonoma County Fire Chiefs Association has invested significant resources into qualifying a new initiative for the March 2024 ballot. The new initiative was written by local firefighters and fire chiefs, who believe the measure addresses a critical need facing Sonoma County and reflects their knowledge of the challenges and needs for fire protection.

All funds raised by this measure would be spent by Sonoma County fire agencies to provide fire protection and emergency response services. Strict financial accountability provisions and annual reporting will ensure all funds are spent properly.

The Sonoma County Fire Prevention and Response Measure would create a regional plan based on population density, call volumes, station coverage, current service gaps, and special hazards to advance a comprehensive long-term strategy covering all jurisdictions.

The Sonoma County Fire Prevention and Response Measure would levy a ½ cent sales tax that would generate \$60 million annually to address funding challenges.

The Measure would increase effective firefighting force available countywide using National Fire Protection Agency standards 1710/1720 and a key goal of 3 local firefighters per engine.

The Measure would reduce the strain of responding outside of existing boundaries, reduce dependence on larger fire agencies and increase the overall strength of the firefighting system, while improving recruitment and retention of firefighters countywide.

The Measure would also increase capacity for local fire prevention efforts like vegetation management.

The Sonoma County Fire Prevention and Response Measure would include fiscal accountability protections including representation from Fire Districts Association, Fire Chiefs Association, Taxpayers Association, Board of Supervisors Nominees, City Mayors' and Councilmembers' Association Nominees, Citizen at Large and Labor. A mandatory oversight committee would be required, and all measure funding would be required to stay local and no funding could be taken away by the State or reallocated for purposes other than those specified in this measure.

SECTION 3. Improved and Enhanced Local Fire Protection, Paramedic Services and Disaster Response Initiative.

Article VIII is added to Chapter 12 of the Sonoma County Code as follows:

Article VIII – The Improved and Enhanced Local Fire Protection, Paramedic Services and Disaster Response Transactions and Use Tax Ordinance.

Section 12-60. TITLE.

This Ordinance shall be known, and may be cited, as the "Improved and Enhanced Local Fire Protection, Paramedic Services and Disaster Response Transactions and Use Tax Ordinance," and may hereinafter be referred to as the "Ordinance." The County of Sonoma hereinafter shall be called the "County." This Ordinance shall be applicable in the incorporated and unincorporated territory of the County.

Section 12-61. SEPARATE SECTION WITH TRUE AND IMPARTIAL STATEMENT OF FACTS IDENTIFYING THE TAX AND SPECIFIC LIMITATIONS ON HOW THE REVENUE CAN BE SPENT.

The Expenditure Plan set forth in section 12-66 is intended as a specific and legally binding and enforceable limitation on how the proceeds of the transactions and use tax imposed by this Ordinance may be spent. The revenues collected as a result of this tax may not be used for any purposes not specifically identified in this Ordinance.

Section 12-63. ESTABLISHMENT OF BONDING AUTHORITY.

The cities and fire agencies are authorized to issue bonds for the purposes of advancing the commencement of or expediting the delivery of programs or projects in accordance with the Expenditure Plan set forth in section 12-66. Pursuant to Government Code sections 55800 et seq., or any successor statute, the cities and fire agencies may issue limited tax bonds, from time to time, secured by and payable from all or any portion of the transactions and use tax imposed by this Ordinance to finance any program or project in the Expenditure Plan. The maximum bonded indebtedness, including issuance costs, interest, reserve requirements, and bond insurance, if any, shall not exceed the total amount of the proceeds anticipated to be collected by the imposition of this transactions and use tax. All costs associated with the issuance of such bonds shall be accounted for within the program category in which the bond proceeds are used. The bonds may be issued any time throughout the duration of this tax. Nothing herein shall limit or restrict in any way the power and authority of the County, the cities or any fire suppression agency to issue bonds, notes or other obligations, to enter into loan agreements, leases, reimbursement agreements, standby bond purchase agreements or derivative contracts or to engage in any other transaction under the Government Code or any other law.

Section 12-64. APPROPRIATIONS LIMIT.

The appropriations limit for the County shall be increased for the maximum period permitted by law (four years) to allow for the use of all proceeds raised by the special tax imposed by this Ordinance.

Section 12-65. MAINTENANCE OF EFFORT REQUIREMENT.

The proceeds from this Ordinance shall not be used to supplant an agency's historical general fund(s) contribution originating from ad valorem property taxes, parcel taxes, or any other taxes and/or fees, in support of the operating (non-capital project or limited term expenses) cost for providing its fire related services. The baseline for maintenance of effort purposes will be set as the amount that each agency has for their baseline operating budget (not including limited term funds such as capital projects, grants, grant matches, or other one-time revenues) for fiscal year 2021-2022. If the proportional allocation provided to any agency is materially different than the same proportion allocated in fiscal year 2021-2022, then the jurisdiction, whether County, City of special district, which provides funding shall be deemed to not have upheld maintenance of effort, and will violate this section.

Section 12-66. EXPENDITURE PLAN.

A. Statement of Intent. The fundamental principle guiding this Expenditure Plan is to provide more efficient, effective, and sustainable emergency response, and wildfire prevention capabilities that protect the health and safety of the public in Sonoma County. To achieve this goal, a sub-committee of the Sonoma County Fire Chiefs developed a plan that looks beyond established boundaries to protect the public's safety. The ensuing Deployment Plan, which is the basis of this Expenditure Plan, was informed by NFPA 1710/1720 National Standards, as well as an analysis of population density, call volumes, station coverage response times, special hazard areas, and local knowledge and was developed to provide a long-term framework for planning, funding, and implementing enhanced fire and wildfire capabilities within Sonoma County. The goals of this Expenditure Plan embody the lessons learned from the October 2017 fires (Tubbs, Nuns and Pocket fires), 2019 fires (Kincadee fire), and 2020 fires (Walbridge and Glass fires) and several hundred years of experience of the local Fire Chiefs and firefighters that informed this Expenditure Plan. The Sonoma County Fire Chiefs Association is in support of this

Ordinance as it has been developed through the guidance and input of all Sonoma County fire agencies and will provide sustainable funding for effective and efficient regional fire response and preparedness services throughout Sonoma County.

B. Purposes. The Expenditure Plan for the Improved and Enhanced Local Fire Protection, Paramedic Services and Disaster Response Transactions and Use Tax Ordinance (the "Ordinance") provides for investment into six program categories which include, but are not limited to: wildfire prevention, preparedness, emergency response and vegetation management; recruitment and retention of local firefighters; updates to essential equipment and facilities; transfer of funds among designated local agencies or entities; implementation costs; and countywide expenditures. The tax proceeds must be spent for the purposes authorized in this Expenditure Plan and may not be used for other purposes. The revenues collected from the tax shall be used only to supplement existing services and shall not be used to pay for existing operations. The percentage of tax being distributed to each Agency is set forth in section 12-66(D).

C. Permissible Use of Funds. The revenues generated by the retail transactions and use tax imposed by this Ordinance shall be allocated by Sonoma County on a quarterly basis with additional independent oversight provided by the Oversight Committee described in section 12-67 to ensure expenditures are consistent with this section. Funds shall be allocated for programs and projects that do one of the following:

1. Wildfire Prevention, Preparedness, Response, and Vegetation Management. The addition of approximately 200 firefighters, which will provide for more efficient, effective, and sustainable fire response, paramedic services, and wildfire prevention and response capabilities that protect the health and safety of Sonoma County residents, business owners, and visitors. The sales tax will fund new regional fire inspectors and a county-wide vegetation management crew to provide enhanced vegetation management to prevent wildfire spread throughout the county. Local fire agencies' staff shall provide vegetation management services in their jurisdictions, including parcel inspections to ensure that property owners are complying with minimum vegetation management standards of the County of Sonoma's Abatement of Hazardous Vegetation and Combustible Material ordinance or relevant ordinance (that meets the minimum standards established by the County) within an agency's jurisdiction. The county-wide crew will perform vegetation management fire prevention services that will directly mitigate hazards, reduce fuels, reinforce evacuation routes, and construct fuel breaks.

2. Recruitment and Retention of Local Firefighters. As described above, the sales tax will provide support for approximately 200 additional firefighters throughout the county to protect the public's health and safety. The enhanced level of service will fund qualified firefighters and paramedics to provide wildfire suppression, emergency response, and vegetation management fire prevention services. In addition, the sales tax will go to certain fire agencies that have specific challenges recruiting and retaining full-time firefighters.

3. Update Essential Equipment and Facilities. The agencies that provide fire suppression services are authorized upon the approval of their respective legislative bodies, to use their allocation of tax proceeds to bond for the purpose of improving and/or replacing fire facilities, equipment and/or apparatus to increase the capacity of their respective fire suppression agencies to respond to the fire suppression and fire prevention needs of their respective communities including equipment and facilities upgrades, construction and/or acquisition. An agency with municipal fire suppression services may issue limited tax bonds, from time to time, to finance any program or project in accordance with this Expenditure Plan as allowed by applicable law and as approved by their respective legislative body, and the maximum bonded indebtedness shall not exceed the projected 30-year distribution of their annual allocation.
