

STEWARDSHIP RESOURCES FOR SMALL LANDOWNERS

MICHAEL I. JONES, PH.D.

FOREST ADVISOR

UC COOPERATIVE EXTENSION – MENDOCINO, LAKE, & SONOMA COUNTIES

UCCE RESOURCES

- Forestry page: <https://ucanr.edu/sites/forestry/>

The screenshot shows the homepage of the University of California Forest Research and Outreach website. The header includes the University of California logo and the text "Forest Research and Outreach". A navigation menu contains links for "About Us", "Contact", "Getting Help", "Upcoming Events", "Past Events", "Email list", "Publications", "Videos", "Webinars", "Workshops", and "Links". A search bar is located in the top right corner. The main content area features a large image of a forest. Below the image, there is a "Home Page" section with a paragraph of text and a "Forest Research and Outreach Blog" section with a link to a post titled "What can we learn from the 14,000 homes lost during the Camp Fire?". A sidebar on the left lists various topics such as "Home", "Rx workshops materials", "Tree Mortality", "Wildfire", "Forest Stewardship", "Family forest planning", "Biomass", "California Forests", "Forestry Institute for Teachers", "Carbon Sequestration", and "Carbon Sequestration Tool for THPs".

UCCE RESOURCES

- Forest Stewardship Series

The screenshot displays the UCCE Publications page. The navigation bar at the top includes links for About Us, Contact, Getting Help, Upcoming Events, Past Events, Email list, Publications, Videos, Webinars, Workshops, and Links. A sidebar on the left lists various topics, with 'Forest Stewardship' highlighted. The main content area is titled 'Publications' and includes a 'SHARE' button and a 'PRINT' button. Below the title, a note states that most publications are available through the University of California on-line catalog. The page lists several publications under different categories: **Climate Change** (Forest Stewardship Series 25: Adapting Forests to Climate Change), **Defensible Space** (Home Landscaping For Fire, Home Survival in Wildfire Prone Areas - Building Materials and Design Considerations, and The Combustibility of Landscape Mulches), **Economics** (Forest Stewardship Series 22: Forest Taxation, Estate Planning and Conservation Easements), **Ecosystems and Growth** (Forest Stewardship Series 3: Forest Ecology, Forest Stewardship Series 4: Forest History, and Forest Stewardship Series 5: Tree Growth and Competition), and **Fire** (Riparian Forests in California: Their Ecology and Conservation).
