

How to obtain your COVID-19 Vaccination Record

1. CDPH website - [Click Here for the LINK](#)
 - a. Read through the website and provide your:
 - i. First Name
 - ii. Last Name
 - iii. DOB
 - iv. Phone or Email **(THE PHONE OR EMAIL YOU PUT DOWN FOR YOUR COVID VACCINATION PAPERWORK)**
 - b. Create a 4 digit personal code (choose something easy for you to remember, and write it down).
 - c. Once you've clicked submit, it will send you either a text message or email, depending on what you selected.
 - d. Open that communication via the link.
 - e. Enter your 4 digit code to view your record.
 - i. It will have a QR Code and then the following information at the bottom. See the below picture for a blank format.
 - ii. This is an acceptable way to show proof.

SMART Health Card

Vaccination Information:

Name:
DOB:

Dose #1 Date:
Dose #1 Type/Mfr.:

2. Process 2 is for the California Immunization Records System (CAIRs). [Here is the LINK for CAIRs](#)**
 - a. Fill out the entire form and include a picture of a valid Government-ID (i.e. Driver's License or other) that must be uploaded into the field in the Requestor box.
 - b. Click submit form and monitor your email. It will take between 5-7 days for someone to email you your report. These reports are looked over by a real person, so they may try to contact you if they need additional information.
 - c. Once you've been emailed the report, you can open it and print it out for your records.

We highly recommend that you take a photo or photo copy your vaccine cards and records for your personal use later.

*** This process will get you your entire record of immunizations from the state, and everything that is currently in their system. It should provide you with your COVID-19 vaccination information as well as your Vaccine History if it was entered in by your doctor previously.*
