

ACCESS

Homeless participant accesses system at an external access point (i.e. drop in center) or internal access point (i.e. shelter)

Access Point completes the CES Assessment

ASSESSMENT

A.

Housing Problem Solving conversation
- If housing crisis resolved, stop here.
- If housing crisis NOT resolved, go to step B (on the right)

B.

1. Crisis Navigation and resource connection (inc. Emergency Shelter)
2. VI-SPDAT, TAY-VI-SPDAT, F-VI-SPDAT
3. HMIS Data Entry resulting in Total Prioritization Score generation and addition to appropriate By-Name-List
4. Collection of initial eligibility documents, upload to HMIS.

If VI-SPDAT does not accurately assess vulnerability, then:
Enhanced Assessment and Prioritization process to be reviewed at the CES Case Conference.

PRIORITIZATION

Participants are prioritized on the By-Name-List for housing based on vulnerability and housing availability (see P&Ps for details)

REFERRAL

CES Case Conference
Proposed referral is reviewed and confirmed by the community based on prioritization and known eligibility. Providers present at meeting will support with participant information and eligibility coordination. Prospective referral rejections will be reviewed for approval or re-referral.

CE staff send referral to housing provider in HMIS.

If participant cannot be verified eligible or be contacted, housing provider returns to the CES Case Conference for problem solving.

Housing providers contact participant to offer housing opportunity and collect remaining eligibility documentation.

If participant is verified eligible, housing provider accepts the referral, and once housed CE staff exits from CE HMIS program.
