Background and context

- Following our meeting on July 19, 2022, a Post-JJCC Meeting Survey was sent to all participants.
- Survey was sent to get input on priorities and project management for the coming Comprehensive Multi-agency Juvenile Justice (CMJJ) Plan.
- The CMJJ Planning Subcommittee (Subcommittee) will meet over the coming months to develop recommendations.

****More on that later in the presentation****

- A huge thanks to those who already volunteered to be a part of the Subcommittee!

Question 1: What topic would you most like to discuss at the next JJCC meeting? (Open text box)

- ❖ *Diversion
- ❖ Informal dispositions; pre-filing release
- ❖ No preference
- ❖ Re-define qualifications for divergent programs with Seneca
- ❖ Recruitment and retention of community program providers especially Behavioral Health Service providers
- ❖ The richness of these meetings is beyond what I had imagined and the changes in the system on wanting youth to not see incarceration as a life option is just so invigorating. I don't have one specific item to focus on so will truly go with group consensus.

*Items with an asterisk are slated for discussion at this meeting

Question 3: A lot has changed since these goals were created in 2020 and the Subcommittee will help us refocus. For the CMJJ Plan going forward, the Planning Subcommittee should...

Keep working on the remaining goals, removing those that are no longer feasible (little to no development time)

Conduct a review of its goals, reassessing tasks as needed if still determined a high priority (moderate time needed for development and planning, depending on scale)

Undertake a full system assessment (most time needed for both development and planning)
