**Are you frustrated with the way we respond to crime?
Do you wish we had better results?
Is the system too tough? Too soft? Or just right?
Do you believe the Criminal Justice System is broken?**

Come learn about the Coach (referee) Model for Change (CRMC).
The CRMC is an innovative way in which criminal justice agencies
are shifting staff from referee who are asked to catch people
failing to COACHES who are invested in helping people succeed.
