LETTERS FROM:

Chair Gorin

It has been my sincere pleasure to serve as Chair of the Board of Supervisors in 2015. Every year is filled to the brim with activity and passes more quickly than the last. This year was no exception.

One proud accomplishment is our recent financial commitment of $13.5 million to building approximately 100 miles of new roads by 2017. These new dollars bring the total general fund roads contribution to a record $25 million annual investment.

The Board has devoted an unprecedented level of resources to mitigate the social and economic impacts associated with homelessness and a tight housing market. Utilizing the “Housing First” model to guide investment, Building HOMES: A Policymaker’s Toolbox for Ending Homelessness outlines our goal to create 2,000 housing units through a coordinated countywide effort.

“As 2015 saw advances in local economic recovery, the County of Sonoma seized new opportunities to invest in the community, while saving for the future and paying down debt.”

Borne out of the County’s commitment to Upstream Investments, the Board has embraced the health and economic benefits of universal preschool for all children under 5, investing $655,000 to secure 182 preschool slots.

We became the seventh county in California to pass a Living Wage Ordinance this year, an accomplishment which represents our commitment to reducing poverty and paying fair and sustainable wages to our employees and organizations we contract with.

Finally, 2015 saw the establishment of a new citizens committee to advise the Board on pension related matters aimed at ensuring a fair, equitable, sustainable, and transparent County pension system.

I want to thank my colleagues on the Board, County employees, and our community partners for a successful and memorable 2015. I look forward to continuing our work on behalf of the residents of Sonoma County.

Susan Gorin
Chair of the Board of Supervisors

County Administrator Ferguson

Serving as the County Administrator is both inspiring and humbling. Inspiring because I see staff take on the daily charge to realize our mission of enriching the quality of life in Sonoma County through superior public service. Humbling because assuring financial stewardship while balancing competing priorities is a big job.

In 2015, we were fortunate to celebrate the continued improvement of our local economy and took strides to finance our strategic priorities. This Annual Report highlights some of our proudest accomplishments in 2015 in key priority areas including services for our youth and seniors, outdoor recreation and sustainability, and housing and transportation.

Throughout, you see evidence of our collaboration with local partners, who are essential to our success.

In order to reach these achievements, every additional dollar of revenue we receive is considered through the lens of how to best serve Sonoma County citizens. Maximizing the County’s limited resources is a trademark of our past, current and future success.

“With guidance from our Strategic Plan, we invest wisely.”

Anticipated revenue growth, leveraging of state and federal funding, and continuous cost containment efforts undertaken by the Board have established a solid foundation for the County’s finances – one that is sustainable going forward.

As we move into 2016, I continue to be inspired by the dedication of our employees as they strive to provide the best possible service to our community, and humbled by the selfless contributions of our many valued partners. I look forward to working together to make Sonoma County a beautiful, thriving, and sustainable community for all.

Veronica Ferguson
County Administrator
