Follow up planning meeting for Larson Regional Park

Please join us for a follow up community workshop and participate in the review and discussion of some preliminary conceptual plan alternatives, and share your ideas for the future of this neighborhood park. Workshop scheduled for March 2nd; Spanish translation and child care available.

Regional Parks is preparing a new master plan for [Larson Regional Park](#). The planning process will determine the preferred mix and layout of future park features and circulation, and guide future renovations and improvements to be undertaken as funding becomes available. As part of the process they are hosting a public workshop as a follow-up to the initial sharing session held last fall. The workshop is an opportunity for Sonoma Valley residents to become involved in the process of shaping the vision of this park for the future.

The approximately 7.6 acre park features athletic fields, tennis courts, a playground, picnic sites and a community garden run by Nuestra Voz. Sonoma Creek runs forms the western boundary of the park, and Flowery School sits adjacent and to the north. A segment of the Central Sonoma Valley Trail runs through the park and will eventually connect to Highway 12 and the Sonoma Valley Trail when these segments are built.

The March 2nd workshop is scheduled from 6:30 to 8:00 p.m. at Flowery Elementary School, 17600 Sonoma Hwy, in the Multi-purpose room. Spanish translation and child care will be available. In addition to the workshop, community members will also have the opportunity to review the conceptual alternatives and provide input online. Materials will be posted subsequent to the meeting.
