We anticipate using a natural mix of native trees, shrubs, and decorative fencing with climbing vines and other flora that are drought and fire resistant. We anticipate creating a natural looking native landscape that will support the biodynamic health of the entire surrounding property. The plants we intend to use include but are not limited to:

- Indicates area of mixed landscape for screening purposes.
- Cupressus decussata (Incense Cedar)
- Cercis occidentalis (Western Redbud)
- Prunus lyonii (Catalina Cherry)
- Blue Oak (Quercus douglasii)
- Valley Oak (Quercus lobata)
- Oregon White Oak (Quercus garryana)
- Englemann Oak (Quercus engelmannii)
- Coast Live Oak (Quercus agrifolia)
- Interior Live Oak (Quercus wislizenii)
- Canyon Live Oak (Quercus chrysolepis)
- California Black Oak (Quercus kelloggii)
- Chaparral Clematis (Clematis laxiiflora)
- California Dutchman’s Pipe or Pipe Vine (Aristolochia californica)
- California Honeysuckle (Lonicera hirsutula)
- Western White Clematis (Clematis ligusticifolia)
- California Morning Glory (Calyxegia macrostegia)
- Pacific False Bindweed (Calyxegia purpurea)
- San Diego Sweet pea (Lathyrus laetiflorus alhefeldii)
- Pink Flowered Current (Ribes sanguineum glutinosum)
